CREATIVE HS-720 V2

USB Headset with Noise-cancelling Condenser Mic and Inline Remote with Mic Mute Button for Video Calls

Communicate clearly and confidently with our latest Creative HS-720 V2 USB headset! Refreshed with a new, understated look and optimized for online meetings, the Creative HS-720 V2 is a simple plug-and-play headset that works with any PC or Mac, and is lightweight so you can use it comfortably for long hours without fuss!

The Creative HS-720 V2 equipped with all the must-have features for all work calls—a noise-cancelling condenser mic to block off unwanted noise, mic-monitoring (sidetone) feature that keeps you in check of how loud you sound to others, and a convenient inline remote that comes with easy access to mic mute button and calls pick-up.

Requiring zero extra software nor installation, this is the ideal USB computer headset for any working professionals who wants an easy and fuss-free headset experience.

BE HEARD CLEARLY WITH NOISE-CANCELLING MIC
Featuring a passive noise-cancelling condenser mic, the Creative HS-720 V2 lets you speak clearly to your bosses and co-workers during any video call. The headset's boom mic picks up your voice over the surrounding noises so that you are heard without audible disruptions from the background, keeping your audience focused on what you have to say. Besides, the flexible boom microphone allows you to easily adjust it to any angle for the right fit

KEEP TRACK OF YOUR VOLUME VIA MIC-MONITORING FEATURE
Hear how loud you sound to others during an online video call with the mic-monitoring (sidetone) feature on the Creative HS-720 V2. This feature plays your own voice back into your ears, allowing you to consciously adjust your speaking volume when necessary, and so you can speak more comfortably and confidently to the team

QUICK ACCESS TO MIC MUTE AND CALLS PICK-UP
Without having to go back to the conference call's app screen to mute or unmute yourself, the HS-720 V2 comes with an integrated mic button located on the headset's inline remote. While muted, the mic button will light up in red so that you are aware of your mic's status. Besides, the inline control also features a direct call pick-up button as well as the volume and playback buttons, all conveniently located at your fingertips

BE MEETING-READY IN SECONDS VIA SIMPLE USB PLUG-AND-PLAY
Without the need to install any extra software or to fiddle with settings, the Creative HS-720 V2 works immediately once it is plugged in via the USB-A port. This simple plug-and-play headset is suitable for use with any PC or Mac laptops or computers, and works with all the popular online conference apps like Microsoft Teams, Skype, Zoom, and Cisco WebEx

LIGHTWEIGHT AND COMFORTABLE WITH GREAT AUDIO PERFORMANCE
The Creative HS-720 V2 is designed to be lightweight (135g / 4.76 oz) so that you can wear it for long hours on end without feeling weighed down. At 2m (6.56 ft), the cable length provides just enough buffer for you to move around or stand up to stretch whilst in a long meeting. The headset is also equipped with 30 mm Neodymium drivers that are faithfully tuned to deliver powerful acoustics and enhanced digital audio for all use scenarios
