

CREATIVE SBS E2900

2.1 Powerful Bluetooth Speaker System with Subwoofer for TV, Computers, Laptops

The most powerful speaker system in the Creative SBS E2000 series, this all-round 2.1 speaker system is set to captivate the audience with its incredible audio performance while offering a wide spectrum of connectivity options – wired, wireless, and in other forms.

With the SBS E2900, stream wirelessly via Bluetooth, listen to your favorite FM radio channels, or play your audio of choice directly via USB or SD card playback. For wired connectivity, connect your device to one of the two available 3.5mm AUX-in inputs. To top it all off, you may also easily access and change volume and playback control settings directly on the speakers, or customize the treble and bass settings with the included wireless infra remote control.

The Creative SBS E2900 is designed to fulfill your need for an uncompromised, high-performance audio entertainment system.

- **2.1 Speaker System with Far-field Drivers**

Powerful 2.1 Bluetooth speaker system that offers stunning and loud audio performance with 60W RMS and up to 120W Peak power. The speakers are fitted with in-house tuned far-field drivers to deliver room-filling audio for an immersive audio experience.

- **Front-firing Quality MDF Subwoofer**

Front-firing subwoofer capable of delivering deep, rumbling bass for an immersive experience especially during action-packed movie scenes or while dancing to the electronic dance music genre. The subwoofer comes in quality MDF for the perfect bass reproduction.

- **Various Connectivity Options – FM Radio, Bluetooth 5, 2 AUX-in ports, USB Playback, SD Card**

An extensive array of connectivity options for everyone:

- Listen to your favorite radio stations or DJs with the built-in analog FM tuner
- Featuring the latest Bluetooth 5.0 technology, enjoy high-quality audio wirelessly to your devices without any cable fuss
- Equipped with a SD card slot for SD card playback so you can listen to your very own curated list of songs!
- Jam out to your favorite tunes from a USB thumb drive using the built-in MP3 Player via plug-and-play functionality
- Two 3.5mm AUX-in ports for wired analogue connectivity to your computer, TV, and more

- **Convenient Control Buttons**

Easily access music playback and volume control from the system's front-facing control buttons.

- **Included Remote Control with Treble and Bass Control Settings**

For added convenience, we have included an infra remote control so you can adjust the speaker's audio settings, volume and music playback wirelessly. You may further customize the audio with the treble and bass controls on the remote control provided to suit the audio genre you're listening to, or to fit the mood you're in!

^ FAT 16 / FAT 32 file format. Max 32Gb. Does not support SDXC cards. ¹ Stereo Bluetooth or A2DP profile enables wireless transmission of full stereo sound to other Bluetooth devices. To determine whether your device (notebook, PC or mobile device) is equipped with A2DP-enabled Bluetooth technology, refer to your device manufacturer's documentation/website for more information. Compatible with PC (Windows XP/Vista/7/8/1,10), Apple Macintosh equipped with Bluetooth wireless stereo. Compatible with most major brands of Bluetooth A2DP enabled mobile phones. Good reception area for FM radio reception. Play MP3 audio file format on USB thumb drives / SD cards.
