Sound Blaster PLAY! 3

HI-RESOLUTION 24-BIT 96KHZ USB DAC AMP

The Sound Blaster Play! 3 is a High Resolution USB sound card with its own built-in DAC and headphone amp. It is the easiest and most portable solution to enjoy Hi-Res 24-bit 96kHz plug and play audio. Upgrade from basic on-board audio to the renowned Sound Blaster audio and experience what millions of users all around the world are already enjoying!

- **24-bit 96kHz Hi-resolution USB DAC playback**
  Upgrade your existing on-board sound to a USB DAC capable of 24-bit 96khz playback instantly!

- **Headphone Amp improves Listening experience**
  Enhance your listening experience through the headphone amplifier, capable of driving a wide range of headphones, from gaming to studio-grade headphones.

- **Best of both worlds connectivity**
  Having headsets with different connectors? The Sound Blaster Play! 3 let you connect your headsets with single or split stereo/mic connector easily without the use of Y-splitter cable.

- **Sound Blaster Control Panel Software***
  Created based on our rich history of creating class-leading audio algorithms, Sound Blaster Control Panel application powers the Sound Blaster Play! 3. It gives you unprecedented control over your listening experience with audio realism and immersive audio effects that enhances your music, entertainment and games. Also includes optimized profiles for selected earphone brands.

- **Instant Headset or Speakers Audio Quality Upgrade**
  Simply plug into a PC or Mac, and amplify any headset or speakers to instantly boost your listening and gaming audio experience.

* Available for Windows® and Mac OSX®
