

T2C

Open & Close Sensor

Requires using with the EZVIZ Home Gateway A3¹

A sensor that checks the doors and windows for you

Doors, windows, pet gates – forget about having to check and re-check if they're open or shut. Install the T2C Open/Close Sensor anywhere you need it, and check on your home in real time. If anyone forcibly breaks in, you will hear a loud alarm and receive a mobile alert right on your smartphone. Enjoy the assurance that comes with a protected home.

Open / Close Detection

Instant Alerts via EZVIZ App

Anti-Tamper Alarm

Peel-and-Stick Installation

Energy-Saving Design With Long Battery Life

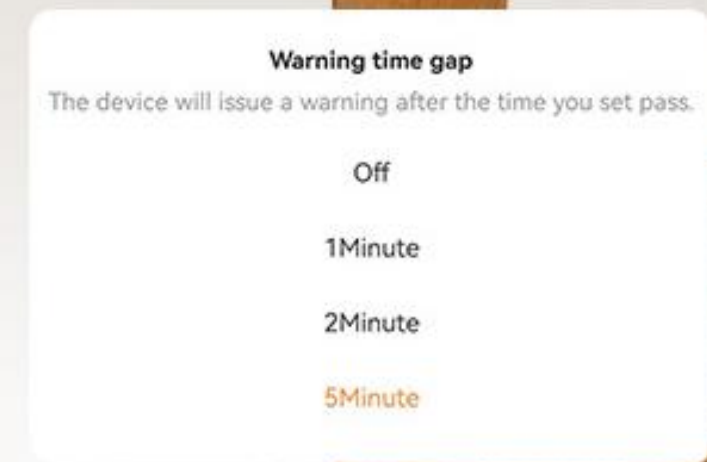

Smart Integration With EZVIZ Cameras²

Know if your doors are left open, or get opened

Can't remember whether you've shut your windows tight when leaving home? With the T2C, you can check the open/close status anytime and anywhere on your smartphone. And if someone tries to open a door or window, you'll receive alerts directly to your smartphone.

Doors / Windows

Closets

Baby Cribs

Pet Cages

Install it anywhere for the protection you need

This mini-size sensor fits easily in your home environment – just peel the sticker and place it anywhere. It makes your home access safe, and guards your loved ones while you're out.

Link it up with your camera to see who enters

Integrate your T2C with your EZVIZ cameras¹ for enhanced protection – all using the EZVIZ App. You can set the linked camera to begin auto-recording for 5 seconds whenever the door is opened³.

Anti-tamper alarm for added protection

For extra peace-of-mind, the sensor alerts you immediately when anyone forcibly removes its cover.

Long-lasting performance you can trust

The T2C is designed with high energy efficiency, operating for up to 2 years⁴ with the included battery cell. Enjoy the reliability and reduced energy costs with the T2C.

Expand your EZVIZ alarm system

The open/close sensor can be conveniently added to your EZVIZ sensor system for expanded protection. You can manage and arm the system using the free mobile app from EZVIZ.

- 1 The gateway is not included in the purchase of the sensor. The sensor only works in conjunction with the EZVIZ Sensor Kit.
- 2 The T2C Open/Close Sensor must first connect to the gateway to link with EZVIZ cameras. The sensor can only work with EZVIZ wired cameras that are launched with version 5.3.4 or later firmware. Please contact the EZVIZ support team to confirm camera compatibility.
- 3 The current version only allows the C6 Smart Camera to auto-track activities upon sensor detection. Other pan/tilt cameras will only record at its original fixed viewing angle when the sensor detects an activity. The sensor-triggered auto-tracking feature is under development and will likely to be available on most EZVIZ indoor PT cameras in 2022.
- 4 Data from EZVIZ lab test results, based on a usage of 30 opening/closing actions per day. May vary due to activity frequency and other environmental factors.

Specifications Open/Close Sensor Model CS-T2C-A0-BG

General

Operation Conditions	-10 °C to 55 °C (14 °F to 131 °F), humidity 95% or less (non-condensing)
Dimensions	Main body: 53.5 × 22.5 × 13.5 mm (2.1 × 0.9 × 0.5 inch) Magnet: 32.0 × 10.5 × 13.5 mm (1.2 × 0.4 × 0.5 inch)
Package Size	92 × 52 × 93 mm (3.6 × 2.0 × 3.7 inch)
Weight	80 g (2.8 oz) with package

Network

Protocol	ZigBee 3.0
Communication Distance	< 200 m (Tested in open environment)

Detection

Detection Type	Open / Close status
Recommended Trigger Distance	Wooden door > 25 mm Iron door > 15 mm

Function

Low Battery Reminder	Supports
Anti-Tamper Alarm	Supports
Installation Method	Adhesive back for peel-and-stick installation

Battery

Battery Type	Cell battery CR1632 × 2
Battery Life	Up to 2 years (Based on the usage of 30 detections per day)

In the box

- T2C Open/Close Sensor
- Doubled-sided Tape Strip(s)
- Regulatory Information
- Quick Start Guide

Certifications

CE / RoHS / REACH / WEEE / UKCA
